

# eXtreme engineering StarHoist®

## Security Verified

Every gear within StarHoist® possesses a unique identification number for safety and security, ensuring the highest standard of quality for our customers.

Quick Fact:  
Each StarHoist® is hand-assembled by our team of highly skilled technicians.

## RELIABLE, COMPACT, LIGHTWEIGHT, EFFICIENT

StarHoist® is a high performance traction hoist for use in material and equipment lifting.

### RELIABILITY

As one of the region's largest subcontractors in the suspended platform market, Safewell's reputation for quality and reliability has grown each year since operation, from the year 1980. Our ability to provide support and maintenance makes us a trusted and valuable industry partner.

### SAFETY AWARDS

Safewell has been awarded numerous safety awards for the supply of StarHoist® suspended platforms which is currently powering more than 1000 working platforms throughout Southeast Asia and Europe, including Hong Kong, Singapore, Malaysia, Thailand and Spain. StarHoist® has been tested in a variety of challenging sites, including power stations, overground railway tracks and oversized storage tanks.

### FLEXIBLE

StarHoist® is part of a large family of products and services offered by Safewell as we have the ability to supply a full set of working platforms to our customers. Products include custom fabricated platforms, high quality wire ropes, safety devices, electrical control boxes, spare parts and we can assemble this all locally for our customers. All our products are designed to work together in numerous configurations to provide a high degree of flexibility.

# PROJECTS

## StarHoist® Technical Specifications

Rated Load Capacity	500KG
Lifting Speed	8.5m/min
Stopping distance	<100mm
Wire Rope Diameter	8~8.3mm
Weight	33KG
Dimensions	260 x 280 x 250mm
Voltage	~380 (450) V
Frequency	50 (60) hz
Power	0.75kw
Break moment	10.4BNm
Rotating Speed	1380rpm

**LIGHT & COMPACT** - Amazing 500kg load capacity while weighing only 33kg. This translates into an incredible 15 load/weight ratio!
